Monday 18th October

Elliston Area School
100 Year
Celebration/
41st Annual Wool
Show
23rd October 2021

Hello everyone and welcome to Week 7 of Term 3

Site Improvement Planning

Last week we were delighted to have a visit from Primary Project Officer in Curriculum Support, Kate Eadsforth who is assisting our staff with their reading programs and identifying areas of adjustment to better meet the needs of our students. Kate will also be a facilitator at our upcoming Student Free Day, next Monday the 6th of September 2021, which we are really looking forward to.

100 Year Celebrations and 41st Wool Show

We would like to thank Jess Bascomb for designing our latest 100 Year Celebrations and 41st Wool Show advertisement. Classes have been planning the walk through the decades where visitors to our site will be encouraged to wander through classrooms to view works and information on display of students, teachers and the facility throughout the past 100 years.

SAPSASA

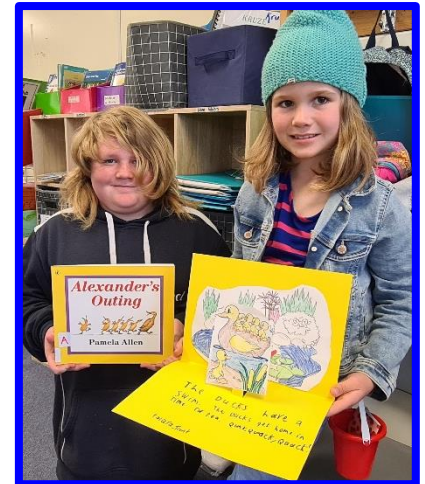

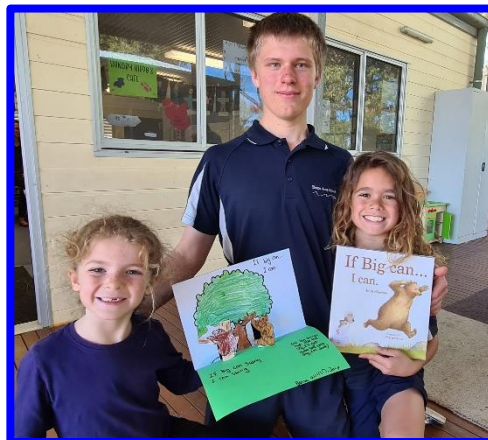

Congratulations to Jarrah Donovan who has been selected to represent Central Eyre in SAPSASA Athletics in Week 10, participating in the Discus and Shotput. Congratulations also to Carlo Romanowycz and Ashton Fleming who will be participating in the SAPSASA Golf State Final at West Beach Parks on September 9 & 10. Well done to you all and we look forward to hearing about your experience.

Book Week

Last Wednesday our students had a delightful time dressing up as their favourite book characters, related to this year's book week theme of Old Worlds, New Worlds, Other Worlds, and participating in cross age peer literacy activities.

Have a wonderful Week.

Kind Regards
Chad Fleming
Principal

Science Week Activities

This week in my lessons (4/5 Science, 6/7 Geography and 8/9/11 Geography), we asked where and how food meets science. We discussed what food Science is and looked at past, present and possible future examples of science helping us produce food. We introduced ideas like sustainability, economics and opportunity. Then students broke into groups of 3-4, and considered the following ideas.

- Lincoln Weed is technically edible, nutrient rich and tough as. Could it ever become a resource rather than just an economic burden on primary producers?
- What would the perfect food crop for the Elliston environment look like? What features of existing plants would you combine if you could?
- Is eating more wild food really sustainable? What scientific knowledge would need to be known, and what laws and social attitudes would need to change, if some of the larger native animals found in our district (eg Kangaroos, Wombats, Emus & Cape Barren Geese) were ever to become edible, commercial, resources?

As you can see, these are some big ideas, and some students initially did not enjoy the fact there were often no right or wrong 'googleable' answers. As students talked to each other, discussed ideas, argued points, tried to find if any experts or data already existed to help support their arguments, introduced knowledge and experiences from their own lives, and sketched, drew and wrote down some of their thoughts around the issue though, this frustration and confusion lessened, until students were communicating in the types of terms and concepts that all real scientists use.

If you get the chance, ask your child about which topic they looked at, what they think and why they have come to that conclusion.

Making Pizza's

What is Yeast?

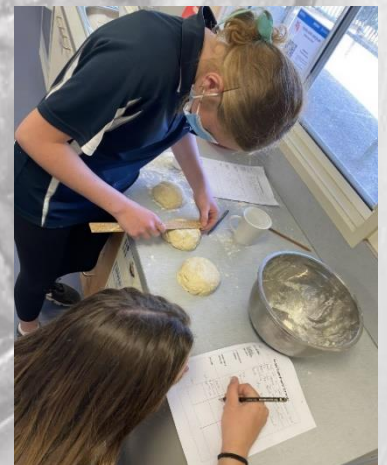

What are the best growing conditions for Yeast?

How will we know?

What data can we collect?

What observations can we make?

How is Yeast used in everyday

Clarify some of the new skills and processes you have learnt.

Design and Technology

Facemasks

Use TEEL to structure paragraphs

- Topic sentence (main idea/theme)
- Explain (further explanation of topic)
- Evidence and Example (e.g. citations)
- Link (refer back to main argument, sum up or link to next paragraph)

Elliston Area School

Subject-Design and Technology (Facemask)

Student Name _____

Task/Question	Response	Mark
1)Introduction Please include a short paragraph that outlines the type of product you intend to design, make and appraise and its intended purpose. (Super paragraph)		/10
2)How important are face masks at this current time? (Super paragraph)		/10
3)Research -FUN Research another product similar to the one you intend to make. Use resources such as catalogues, magazines, the internet and photos and describe the product and discuss its purpose and the positive and negative attributes of the product. Collect 2 other designs and critique		/10
4)Explain how your finished product meets its intended purpose? 3 quality sentences		/5
5)Discuss the problems you encountered throughout the construction process? 3 quality sentences		/5
6)Clarify some of the new skills or processes that you learnt? 3 quality sentences		/5
7) Reflection -Overall, were you happy with the finished product? Why... 3 quality sentences		/5
Finished product		/20
Overall Comment		

How important are facemasks during these current times?

Research another product similar to the one you are going to design.

What is the intended purpose of the facemask?

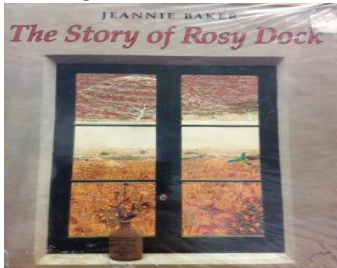

30th August 2021. Term 3, Week 7

The 2/3 class have been looking at the history of the Nature Trail.

By Kate Jervis, Jay Dudley, Sheri Lapsley

As part of our Story Book study in Initialit, we have been reading some Jeannie Baker books. She writes descriptive, Australian based, nature stories, and does her own amazing illustrations using Collage.

We also looked at some art by Port Lincoln artist Karen Carr. She was creating birds out of bits and pieces from her garden

We researched the animals that live in our nature trail and each chose a bird to recreate using natural materials found only in the Nature Trail.

Once finished our art blew away.....

You will need to drop in to the
Elliston Area School 100 Year Celebration to view
the final display.....
