Dates to Remember

Governing Council Meeting
Monday 20th June

School News

Hello everyone and welcome to week 7, Remote Learning week.

We thank our school community for your understanding during these challenging times. Last week we had a significant rise in positive COVID-19 cases in our community, with many students and staff currently unable to attend school.

As a result, the Department for Education has agreed that all students move to remote learning from today, Tuesday, June 14th to Friday, June 17th, 2022. As we move to a remote learning curriculum for 4 days this week, please ensure families refer to my emails that detailed the curriculum learning expectations.

Although this is an unfortunate situation, we feel it will be the circuit breaker required to ensure the health and wellbeing of all staff and students moving forward.

If you require further information, please don't hesitate to contact me.

Kind Regards

Chad Fleming

Principal

SRC Term 2

Week 7 – Friday Night Disco – To be rescheduled

Week 9 – Jump Rope for Heart afternoon

PRINCIPALS READ ALOUD at HOME CHALLENGE

Every time your child reads aloud to an adult, the students themselves, are required to record the book and the number of pages they read in their diary or home book and bring it to their parent/carer for initialling. If this takes place 3x per week students will be rewarded with 5 Stars/5 Sprit Award Points that will go towards their house team tally and classroom prizes. This Term we have also introduced a visual reading aloud at home tally in each class for the students to track their progress. I will monitor each child's read aloud at home tally and thank them for taking the time to practice their reading, because as Dr Seuss always says **"The more you read, the more things you will know.
The more that you learn, the more places you'll go."**

WANTED: Scrap Metal

The secondary Design and Technology students are looking for scrap metal they can weld together to create SCRAP METAL SCULPTURES.

If you have any old rusty scrap metal, nuts and bolts or old machinery parts that we could cut up and use in our sculptures it would be greatly appreciated. Please let Mr Fleming know on 0488546188 or simply drop off at the front office or near the Design and Technology shed. Thank you in advance for your valuable donations.
